

Perform the Weather Dude's songs

Background tracks from the Weather Dude are available on CD

Many of you have asked for music-only tracks (minus vocal) so your class or chorus can perform songs from Sing Along with the Weather Dude. All ten tracks are available from the original recording, but without Nick's voice. *You* provide the lead vocal for a fun and educational performance.

Have Nick personally introduce your program!

Nick will record an optional spoken introduction for your musical program. He can say something like, *"Hi this is Nick Walker, on-camera meteorologist for The Weather Channel. I'd like to thank the Cedar Hills chorus for performing some of my songs. I know you're in for a treat this evening, so please join me in welcoming director Brian Smith and the Cedar Hills Elementary School chorus!"* You specify what you'd like Nick to say, and he'll record the introduction just for you. There is no extra charge for your personal introduction.

Choose the songs and the price you want!

Want to perform all ten songs? Fine. But if you want only one or two songs, that's all you pay for. And as a bonus, when available, two versions of each song are provided at no extra charge, one with background vocals and sound effects, and one without. Each CD is custom-made individually to your specifications and is the fully-produced music track from the original recording. Because of this, pricing is different from the *Sing Along with the Weather Dude* CD/book. The cost of your first music-only track is \$12.98. Each additional song is \$5.98. The price for all ten songs is \$45.98, for a savings of more than \$20. The price covers performance royalties (fees paid to publishers for the right to perform musical compositions) Music-only tracks are available on compact disc only.

ORDER FORM	
Use this form to order your <i>Weather Dude</i> tracks. Complete this form and mail to: Small Gate Media, P.O. Box 675754, Marietta, GA 30006
